Subject: RE: typo in ST-12 weekly report?

Carolyn

The NAPL volume was for last week. We have been reporting the total NAPL recovered in pounds in the same table. The conversion factor is 6.58 so the total volume removed in gallons is 49,634

Subject: typo in ST-12 weekly report?

Don the weekly SEE report reports 3,940 gallons of NAPL recovered. Is that a typo, or is that just in the last week? Before you had been reporting cumulative NAPL recovered in gallons; that's one of the metrics I was reporting to management in our weekly reports. Could you continue to report the cumulative total in the weeklys? Thanks.

Carolyn d'Almeida
Remedial Project Manager
